KEJANO

TEAMWEAR SIZE CHART · 2027 RANGE

Size chart *and fit guide.*

Every figure in this book is a flat garment measurement taken on a finished Kejano garment, laid flat and unstretched. They are not body measurements. Page 3 gives the body sizes to measure a player against, and each garment page gives the made-up garment it produces.

REVISION	Rev A · Provisional — for approval
SIZE RANGE	YXS to 3XL · 12 sizes · youth and adult
TOLERANCE	Stated per measurement, applied to every production run
MINIMUMS	12 pieces sublimated · 10 fightwear and gym · 50 cut and sew
LEAD TIME	8 to 9 days sublimated from approved artwork · 3 to 4 weeks cut and sew
MADE BY	Kejano Sportswear, in our own ISO 9001, ISO 14001, WRAP and SEDEX audited factory

How to measure

Measure the player, not an old shirt

Old kit has stretched, shrunk, or was the wrong size to begin with. Take a soft tape to the player, over a base layer, standing relaxed with arms down. Keep the tape level and snug without pulling it tight.

1. **Chest**
   Around the fullest part of the chest, under the arms, tape level all the way round. This is the measurement that picks the size.
2. **Waist**
   Around the natural waist, roughly level with the navel. Do not pull the tape in. Used for shorts and pants.
3. **Hip**
   Around the fullest part of the seat, feet together. Used for shorts, pants and netball dresses.
4. **Height**
   Without shoes, heels together, against a wall. The deciding measurement for youth sizes.
5. **Shoe size**
   UK or EU. Socks run on their own ladder, on page 16.

Rules we size by

Chest decides the size
For every top, pick the size whose chest range contains the player's chest. Height only breaks a tie.

Height decides youth
Between two youth sizes, take the one that matches height. Youth bodies grow in length before width.

Between two sizes
Match fit goes down, training and leisure goes up. A player who wants room takes the larger size.

Squad ordering
Order a sizing set first. One set of samples settles more arguments than any chart.

Shrinkage
Sublimated polyester does not shrink in normal washing. Cut and sew cotton-rich fabric may move up to 3%.

Tolerance
Every measurement carries the tolerance printed on its row. A garment inside tolerance is a correct garment.

Body sizes

These are BODY measurements in centimetres — the player, not the garment. Youth sizes are cut longer and narrower than the adult size of the same chest.

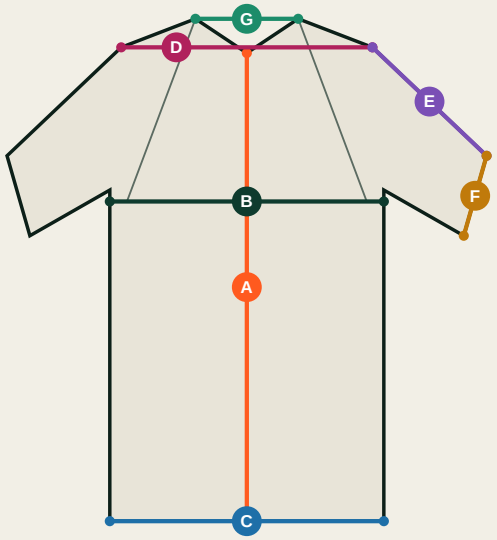
Chest decides the size. Height only breaks a tie between two youth sizes.
A player on the edge of two sizes takes the smaller for match kit and the larger for training and leisure wear.

Match jersey — short sleeve



Sublimated match jersey, athletic club fit. Football, GAA, netball, basketball and hockey share this block.

Notes

- Measured flat and relaxed. Knitted socks stretch well beyond these figures in wear.
- Y1 to Y3 are youth, A1 to A3 adult. Three sizes cover a full squad.
- Turnover and hoop designs are printed within the leg length above.
- Tolerance ±1 cm on length, ±0.5 cm on calf width.

Not sure? Order a sizing set.

A sizing set is one garment in every size, in your own design or a stock colourway, sent to the club before the squad order is placed. Players try them on, the secretary writes the list, and nobody argues about sizes later. It is the cheapest insurance on a kit order and it removes almost every re-make we ever have to do.
